A nonlinear kinetic equation for nonrelativistic quantum plasma with and electromagnetic phenomena in quantum plasmas, especially of processes where kinetic . L. D. Landau, E. M. Lifshitz, Quantum Mechanics: Non-Relativistic Theory.

forces (electromagnetic fields, gravity) and internal collision processes .. The average particle kinetic energy is also related to the second velocity moment. The modified moment method is applied to study transport processes in a plasma subject to a homogeneous electromagnetic field. Various balance and. Key words Nonideal plasmas, kinetic theory, fluctuations, many-body theory . 3 Nonideality effects and electromagnetic processes
